

SoCal Flight Club Pilot Roundtable - What Would You Do?

Join us this month as we host our first Pilots' Roundtable (at our rectangular table). Our discussion will be based on events reported to the Aviation Safety Reporting System (ASRS). We'll discuss how we would have handled these situations, what hazards existed, and how they could have been avoided or mitigated. We'll also see how the pilots that filed the reports responded, and what the outcomes were. If there's a particular scenario you'd like to discuss, whether it's from ASRS or not, you're welcome to share it with the group too. This event is suggested for pilots and student pilots of all experience levels. Click here to RSVP

Directions: Exit the 15 freeway at 9th Ave, head up the hill, take a right on Canterbury Pl, then a left into the parking lot. Enter the building, take the elevator up to the 3rd floor and head left down the hall to the conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
